

IVI News Update

IVI is excited to announce the development of a Digital Transformation Programme that will be available on the 1st March 2019!

The **IVI** Digital Transformation Programme will be a comprehensive tool kit that leverages our extensive **IT-CMF**, with a range of training options, capability assessments, and skills and competency. All laid out in a recommended chronological roadmap.

The Programme will support organizations and de-risk their actions and investments enabling an organization to define and start a **Digital Transformation Programme** based on capability improvement that is customized to its needs.

IVI's Digital Transformation Programme will provide a mechanism to manage a constant improvement programme with metrics/performance indicators so that the organisation can track their progression on their customized Digital Transformation path.

To register interest in this new Digital Transformation Programme please click [here](#)

Cloud Adoption Readiness Assessment

IVI and the **Cloud Credential Council** (CCC) have teamed up to develop a free to use **Cloud Adoption Readiness Assessment**. This assessment allows you to assess your organisations readiness to adopt cloud technologies and to provide recommendations around capability and competence improvements.

For further details on this assessment please click [here](#)

Research Funding Opportunities

IVI is actively looking for research partners and there are multiple funding streams from Government that your organisation could participate in with **IVI**.

IVI has a particular focus on **The Digital Agenda** and other themes that could be driven by your needs to accommodate IT innovations in your dynamic business environment.

For further information on these research funding opportunities please click [here](#).

Exploring the Culture of Open Innovation: Towards an Altruistic Model of Economy

Acclaimed entrepreneurship and innovation scholar **Professor Piero Formica** and **Dr Martin Curley**, along with a strong and diverse cast of international contributors, explore the world of Open Innovation in this volume. Tackling new developments in the field, the authors examine altruism and the role of openness to unorthodox and unconventional experimentation as the newest arena to create modern knowledge resources and entrepreneurial ventures.

New: IT-CMF - A Management Guide

- Based on the IT Capability Maturity Framework™ (IT-CMF™) 2nd edition

This management guide offers an introduction to the IT Capability Maturity Framework™ (IT-CMF™), 2nd edition. The IT-CMF offers a comprehensive suite of tried and tested practices, organizational assessment approaches, and improvement roadmaps covering key IT capabilities needed to optimize value and innovation in the IT function and the wider organization. It enables organizations to devise more robust strategies, make better-informed decisions, and perform more effectively, efficiently, and consistently.
