

IVI News Update

**All Ireland Smart Cities Forum 2019**

IVI was delighted to collaborate with the All Ireland Smart Cities Forum on its 3rd Annual conference on the theme of "Sustainable Places, Connected Communities" on Tuesday 22 Oct at Croke Park, Dublin.

The Forum had an excellent line up of national and international speakers. The presentations are now available on the Forum's [website](#).

**IVI Runs First 'Discovery for Innovation' Workshop**

With the aim of shaping a vision for 2025, IVI hosted our inaugural 'Discovery for Innovation' workshop in November 2019.

There is no doubt that the mobility sector will look significantly different within the next 5 years. Technological advances are reshaping mobility services and individual transportation experiences. By 2030 it is forecast that global mobility as a Service Revenues will exceed \$1 Trillion. These changes will challenge established business models and revenue streams and open up opportunities within the mobility sector. As new technologies are deployed and increasingly adopted, they will disrupt established processes, value propositions and revenue streams. [Read more](#)

**Academic and Industry Track at KM conference- submissions welcome**

Dr. Clare Thornley and Dr. Shane McLoughlin from IVI are co chairing a track with colleagues at TUD for the European Conference on Knowledge Management 2020 on Knowledge Management & Academic-industry Relationships. If you have any interesting case studies or research, either a full paper or WIP, please [click here](#) for more details. Deadline for abstract submission is 11 February .

**e-Competence Framework (e-CF) updated**

Dr. Clare Thornley, one of the IVI researchers, was part of the expert group that updated the e-competence framework. The new version replaces the previous 2016 version and is a key part of the EC's Digital Europe Strategy through skill development and maturing the ICT profession.
