IVI News Update

IVI Summer Summit Dates Announced!**Delivering Digital Transformation through CAPABILITY
MANAGEMENT**
Thursday 14th June, Maynooth University

We are delighted to announce the IVI Summer Summit will take place on Thursday 14th June at Maynooth University.

All organisations need to decide just what is the shape and expected impact from leveraging the myriad of technologies emerging. When clear, the task of executing a successful digital transformation, and sustaining it, is primarily a focus on defining and acquiring new organisational capabilities.

IVI has built up, and continues to build, a body of knowledge (IT-CMF) that we present for use and consumption through a structured Capability Improvement Programme. Our 2018 Summer conference will expand on the following themes:

- How does this work?
- Who has used and benefited?
- What's new that has been introduced in the past 12 months?
- How easy is IT for my organisation to deploy?

IVI is focused on delivering successful digital transformation delivered through our key offerings; CyberSecurity, Data Protection, Dev Ops, Cloud adoption, and Digital Readiness for organisations, for SME's and enterprise organisations.

Further details to follow shortly.

Irish and UK small firm Digitization Survey

The Innovation Value Institute (IVI) at Maynooth University, Ireland, Ulster University (UU), N. Ireland and Anglia Ruskin University, England are undertaking research on the extent of digitization within SMEs (Small to Medium Sized Enterprises).

Digitization is the result of digital transformation efforts and can be defined as "Organizational change through the use of digital technologies and business models to improve performance" (Wade, 2014, p.3).

We are interested in the views and opinions of small firm owner-managers on this issue. If you are a small firm (with between 1-249 employees) and are based in Ireland, N. Ireland or the UK, can I ask if you could devote some time (approximately 10-15 minutes) to complete a [survey](#) on this issue, please [click here](#) for further details.

[Join our Mailing List](#)[Forward to a Friend](#)**Upcoming Webinar: Information Security Management**

and Risk Management

As part of our monthly webinar series, IVI will be running webinars to introduce two updated Critical Capabilities: Information Security Management and Risk Management.

These capabilities have been updated to help you to manage IT-related risks that may impact the business, and to safeguard information held in your organization, with emphasis on the challenges of the digital age.

We will run two events: an afternoon session and a morning session

Tuesday 10th April 15:30-16:30 IST

Thursday 12th April 10:00-11:00 IST

Know someone that would be interested? Feel free to forward this invite along to them.

New: IT-CMF - A Management Guide

- Based on the IT Capability Maturity Framework™ (IT-CMF™) 2nd edition

This management guide offers an introduction to the IT Capability Maturity Framework™ (IT-CMF™), 2nd edition. The IT-CMF offers a comprehensive suite of tried and tested practices, organizational assessment approaches, and improvement roadmaps covering key IT capabilities needed to optimize value and innovation in the IT function and the wider organization. It enables organizations to devise more robust strategies, make better-informed decisions, and perform more effectively, efficiently, and consistently.

Acknowledgement of Contributors to IT-CMF - are you listed?

We recently published our global list of contributors to the development of IT-CMF at www.ivi.ie/contributors. While we have gone to great lengths to ensure this page is accurate as possible, we would be delighted if you would check and let IVI@nuim.ie know if you or a colleague's name should be included. Thank you.
