Innovation Value Institute Invites you to the Multimillion Euro Programme Launch of ENTRUST and Digi+
March 8th (16:00-18:00) GMT
Renehan Hall, South Campus, Maynooth University

We are delighted to announce that Minister Martin Heydon, Minister of State at the Department of Agriculture, Food and the Marine with special responsibility for Research and Development, Farm Safety and New Market Development will officially launch the programmes ENTRUST and Digi+ on March 8th at Maynooth University.

Prof. Markus Helfert and Ass. Prof. Zohreh Pourzolfaghari from the Innovation Value Institute are leading DIGI+, a world-class research fellowship programme, cofunded by MSCA, on Sustainable Digital Transformation and ENTRUST, a Doctoral Network that will train a cohort of 11 Doctoral Researchers with the aim to establish a new generation of Data Executives.

We hope you can join us at the launch on 8th March. Register below for further details.

Why VR technology needs to be made accessible for people with disabilities

Rehan Iftikhar, Researcher at IVI has recently published an article in RTE Brainstorm in which he highlights the enormous potential of Virtual Reality (VR) technology to address accessibility challenges and promote inclusion in tourism. In the article, he addresses the best practices and opportunities of using VR to enhance the tourism experience for people with disabilities and some possible limitations in its implementation.

STEM For All - Increasing accessibility, participation, and retention of women in technical STEM fields of study (STEFORA)

STEFORA’s is structured around three wide/general project objectives: (1) digital citizenship focusing on mitigating institutional barriers, (2) apply universal design principles in formal and non-formal learning activities including premises, and (3) adopt norm critical approaches to raise cultural awareness and foster gender sensitive education, in the target countries specific to STEM engagement for women. The Purpose of this Erasmus + Capacity Building project is to receive professional support from LNU and MU to improve HEIs institutional and cadre capacities in deploying STEM curricula with proven contemporary strategies, to learn and deploy EU good practices to increase women’s awareness, interest, enrollment and retention, to increase diversity, inclusivity and respect for all through the integration of the principles of universal design in teaching.
