Standards – Navigating the current and future landscape- November 23rd
IVI Members Town Hall- November 22nd
IVI Summit 2024- 10th & 11th June

IVI Summit 2024 Digital- Unleashing the Power of Data and Services

Monday 10th & Tuesday 11th June 2024,
Maynooth University.

The theme of this year's Summit is **Digital-
Unleashing the Power of Data and Services.**

Ensuring how this happens will bring both challenges and opportunities to Industry leaders and academic researchers across various sectors.

On day one of the Summit, we will be facilitating Innovation Workshops to provide an international overview and discussion of digital transformation and strategic directions in specific areas to explore the digital capabilities needed for successful transformation.

On day two, IVI Summit main day, we will hear from experienced industry leaders, policy makers and academic speakers, with keynote addresses and parallel breakout discussions, this summit will discuss some of the key questions challenging them.

Speakers will be announced shortly on our [website](#).

IVI Webinar Series: Open Data and Data Sharing – Striking a Balance

Thursday 26th October 3pm-4.30pm (GMT+1)

The benefits of Open Data and Data Sharing are widely documented in both private and public sectors; covering economical benefits to health benefits to multiple 'data for good' initiatives. Realising the benefits of open data and data sharing can only truly be achieved through striking a balance between openness and privacy/data ownership concerns.

The IVI Webinar series in conjunction with the SFI EMPOWER Data Governance Research Programme will address the challenges and opportunities for both private and public sector organisations in their upcoming webinar – 'Open Data and Data Sharing – Striking a Balance'.

IVI activities this week for MU Research week 2023

IVI were delighted to participate in the MU Research week, we had an excellent turn out at the presentations, talks and demonstrations this week in the IVI Eolas Building, North campus. On Tuesday we had a 30-minute presentation from Prof. Zohreh Pourzolfaghar from IVI and the School of Business on the **Marie Skłodowska-Curie Actions (MSCA) Doctoral Network (DN) EnTrust**.

On Wednesday we had a full day of interactive experience hosted by Marco Alfano on **How can digital technologies help us to improve our health and wellbeing?**

Thursday morning we had a 30 min presentation from Mansoor Ahmed on **Requirement Modelling for AI Act Compliance for Data Sharing in Health Data Spaces**.

Also Thursday a 30 min Coffee&talk from Maryam Nawaz who presented on **Unlocking the Personal Health Empowerment & Wellbeing with Mobile Health Technology**.

And finally to end the end Thursday the 1hr.30mins webinar on **Open Data and Data Sharing – Striking a Balance** with our excellent moderator Katie Crowley, Associate Professor, Department of Computer Science and Information Systems at the University of Limerick and very knowledgeable speakers Declan Deasy, independent Digital Transformation & Data Strategy Advisor, Pat O'Sullivan, Senior Director, Business Insights Arlo Technologies, Tara Lee, Senior Consultant at the Open Data Institute.

For more details and photos of the events please see our website.

Public Patient Involvement (PPI) focus group at Maynooth University

On Sept 28th there was a great turn out for the PPI focus group with senior citizens coming from different Irish counties. Marco Alfano presented his research ideas on the creation of an "Intelligent Health Assistant for Empowerment of Older People on Health and Wellbeing". Participants provided valuable feedback and constructive ideas to better shape research that directly impacts them. IVI looks forward to the next steps of collaboration with this wonderful group.

Missed the webinar on Data Value: Moving beyond a monetary value?

The In the digital age, organizations have become increasingly dependent on data. As part of our digital transformation, it has evolved from being just a mere means of storing information to being a critical asset that can be used to drive innovation, increase profitability, and gain insights. We frequently hear about unlocking the potential of data value, but is the interpretation of data value changing? How do we measure the outcomes of data? How does this impact you or your organisation? It is an opportune time to address these questions with our panel of experts as we delve into moving beyond monetary value and assess the impact on a wider economy and society as a whole.

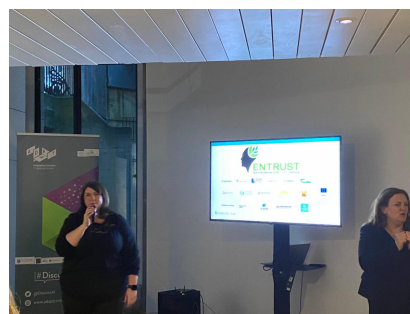

If you missed this website the recording can now be viewed on our website.

EnTrust at the START Researchers' Night at Trinity College Dublin

Kirstie McAdoo, Director of Education and Research Airfield Estate and Marie Curie EU Horizon researcher on Entrust, Maynooth University presenting on the topic Moving farmers from AI to AI at TCD.

EnTrust is funded by the European Commission Doctoral Networks project based in Innovation Value Institute – IVI – (MSCA-DN-101073381 – EnTrust HORIZON – MSCA – 2021 – DN) programme under the Horizon Europe (HORIZON) Marie Skłodowska-Curie Actions. MSCAs are the European Union's flagship funding programme for doctoral education and postdoctoral training of researchers. The EnTrust Doctoral Network will train a cohort of 11 Doctoral Researchers (DRs) in an intersectoral, international and interdisciplinary setting with the aim to establish a new generation of Data Executives that are able to advance the state of the art in sharing data in a fair, transparent, and trusted environment.
