Recap: The 4th International Digital Health Symposium at UNGA79 in New York City

24-26th September, 2024, New York, USA

Global leaders from across the health, tech and pharma sectors gathered at the 4th United Nations General Assembly Digital Health Symposium in New York to share insights, practices and developments in a bid to speed up the digital transition of the global healthcare system.

The Symposium, organised by Maynooth University's Innovation Value Institute in partnership with CHIME (College of Healthcare Information Management Executives), Fordham University and Northwell Health, was opened by MU President, Professor Eeva Leinonen on Tuesday. It was the fourth gathering of its kind convened by MU's Prof Martin Curley and brings together 150 leaders from across the sector to strategise, synthesise and speed up the global digital health transition.

IVI Summit 2025-Save the Date

11-13th June, TSI building, Maynooth University

The theme of next year's Summit is 'What's possible by 2030? Accelerate change with responsible and fair use of data, digital and AI'.

Ensuring how this happens will bring both challenges and opportunities to Industry leaders and academic researchers across various sectors.

We will hear from experienced industry leaders, policy makers and academic speakers, with keynote addresses and parallel breakout discussions, this summit will discuss some of the key questions challenging them.

IVI Webinar: Research Supports &

Innovation Vouchers

10th October

In this webinar we will discuss the research funding opportunities that collaborating organisations can avail of to address their digital transformation challenges.

We will outline the funding programmes available to companies of all sizes from Enterprise Ireland, Science Foundation Ireland and the European Union.

We will hear from some of the many organisations who have successfully applied for these funding schemes and benefited in a strategic and practical way from these programmes to deliver valuable outcomes for their businesses.

Workshop on Information Points for Citizens Under the EHDS

4-5th September, Brussels

Denise Manton participated in this workshop in Brussels organised by BBMRI-ERIC. It centred around how citizens are appropriately involved in the sharing of their health data for research. It showcased existing initiatives from across Europe of informing the public about ongoing data sharing activities as well as communication failures.

Visit from Dr. Hyrmet Mydyti from Kosovo

24th September, Maynooth University

On September 24th, Innovation Value Institute (IVI) had the pleasure of hosting Dr. Hyrmet Mydyti from Kosovo as part of the STEFORA project. Dr. Hyrmet Mydyti, an Assistant Professor at the International Business College Mitrovica, brings a wealth of experience to IVI with over 18 years of expertise in process digitalization and system modernization. During her visit, Dr. Mydyti delivered a seminar titled "Digital Transformation and Data Science: A Journey Through Innovation and Expertise", showcasing her 18+ years of experience of data-driven decision-making, digital transformation leadership, and advanced data analytics in enhancing business operations and creating value.

The visit was a valuable opportunity for knowledge exchange and collaboration under STEFORA's aim to foster interdisciplinary growth through the exchange of expertise. STEFORA is an ERASMUS capacity-building initiative aimed at boosting STEM participation in Kosovo and Albania by leveraging critical social norms, universal design, and digital citizenship. We look forward to further engagements under the project, fostering innovation and knowledge exchange between the institutions involved.

Just as a reminder to you that members are welcome for a coffee in person or virtual so please do drop us an email if you would like arrange this at info@ivi.ie
