IVI Summit 2025 Recap

11-13th June, TSI building, Maynooth University

“What’s Possible by 2030?”

Accelerating Change Through the Responsible and Fair Use of Data, Digital, and AI

At the IVI Summit this year we explored what 2030 will look like through cutting-edge insights and visionary discussions that bridge research and industry.

We brought together over 50 expert speakers, another 50 high profile collaborators, and nearly 300 attendees, into a dynamic three-day programme filled with opportunities to discover emerging research and connect with leaders from academia, industry, and public sector. Engaging Keynote Addresses, Practical Co-Creation Workshops, Enlightening Panel Discussions, Tailored Deep-Dive Breakout Sessions and Networking Opportunities are just some of the amazing elements we curated.

We covered many topics such as:

AI's Impact on Business & Digital Transformation, Emerging Data Strategies & AI Governance, The Future of Hybrid & Cloud Technologies, Innovation in Research & Academic Fields, and Policy, Regulation & Industry Standards.

Truly, the 2025 IVI Summit, and our 20th Anniversary Summit in 2026, is where forward-thinkers, industry pioneers, and AI & Technology driven leaders converge.

IVI would like to specifically thank our Summit Sponsors Kildare County Council, MaynoothWorks and UNUM Ireland.

GoGreen Next at the Planetary Health Cluster Meeting
Recap
3rd-4th June, Brussels

GoGreen Next are linked with 4 other Horizon Europe projects on climate change through a Planetary Health Cluster-which links human and environmental health. The team traveled to Brussels for a cluster meeting with another cluster on Urban Health.

The Cluster's Annual General Meeting is a two day event, which ran from from 3rd June to the 4th of June. This also includes a visit to the European Parliament to meet MEP's.
